

# *Balance and Walking*

## Gait and Balance in Huntington Disease

We are looking for people aged 18 or older with and without a diagnosis of Huntington disease. Participation includes one 2-3 hour lab visit along with one week of at home monitoring.

The in-person visit involves completing questionnaires, a balance assessment, and walking tasks. At home, you will wear sensors similar to a smart watch that will track your activity for 7 days.

You will receive \$25 for your participation.

### YOU MAY QUALIFY IF YOU:

- Are able to walk for 10 continuous minutes independently
- Do not have any neurological condition (besides Huntington disease)
- Do not have any cardiac or orthopedic problems that would interfere with safe participation
